

Tube Caps

Shallow, medium and long Tube Caps fit almost every size of tubing diameter with a snug friction fit.

Closures are primarily used to cap fittings, threaded studs, machined parts and tubes used for packaging drill bits and tools.

TUBE CAPS

Part No.	To Fit OD	L
NIA 210-A	3/32	5/8

* 2 internal rings.
† .067 wall thickness.

Tolerances on all decimal dimensions are $\pm .010$ per inch (example: 2.500 $\pm .010$ per inch = .025).
Tolerances for fractional dimensions are $\pm 1/32$ " per inch.
Heat distortion temperatures are as follows:
Low Density Polyethylene: 100-121°F (66 P.S.I.)
Medium Density Polyethylene: 120-165°F (66 P.S.I.)
High Density Polyethylene: 140-180°F (66 P.S.I.)
